### *Welcome!*

---

Welcome to our second newsletter!

The CrowdWater Newsletter will inform you about the latest news, field stations, app developments and results from the CrowdWater project. If you would like to receive our newsletter per email, please sign up on our homepage <http://crowdwater.ch/de/HowdoIjoin.html>.

---

### *App*

---

First and foremost we would like to inform you, that our new CrowdWater app is now available for iPhones and Android and ready to be used by many hydrology enthusiasts.

All you need to do to use the app is to search for CrowdWater in your App Store. After installing it you only have to create a user account and you are ready to go outside and use it!

There is an explanation of how it works within the app (in the “About” section), but if you would prefer this information in a document take a look here for a little guidebook:

<http://crowdwater.ch/en/Downloads.html> (available in German, English and French – soon also in Spanish).

---

### *CrowdWater videos*

---

Take a look at our youtube channel (<http://tinyurl.com/mdpk5wa>) for our new video, where citizen scientists explain why they joined our project! A big thank you to all of them, especially Marco Rimal!

Soon we will also have an explanation video, of how users can estimate water level and discharge.

---

### *EGU*

---

CrowdWater was presented at EGU 2017 by Prof. Jan Seibert with a presentation, a poster and a PICO. We would like to thank everybody for the fruitful discussions and ideas.

---

### *Citizen Science Association Conference*

---

CrowdWater will also be presented at the Citizen Science Association Conference in St. Paul Minnesota in May. There will be both a talk and a poster about our project and additionally we will have a table at the Citizen Science Night. We are looking forward to meeting you there!

---

### *Tagung Parkforschung*

---

On May 30, we will present our project at the “Tagung Parkforschung” in Bern.

We will be happy to present our project in the context of protected areas.

---

### *Snapshot Field Campaigns*

---

We have held several snapshot field campaigns over the last few months in the greater Zurich area. We were at Limmat, Sihl, Hornbach, Aare, Töss, Irchelbach and Schanzengraben. We will have further campaigns soon and will announce those on our facebook page ([www.facebook.com/crowdwater](http://www.facebook.com/crowdwater)) and on Twitter ([twitter.com/crowd\\_water](https://twitter.com/crowd_water)). A big thank you to everyone who participated!

---

### *Review*

---

We are always happy to receive suggestions, feedback or a report of your experience with the app. You can contact us under [info@crowdwater.ch](mailto:info@crowdwater.ch).
